

Report Date: 15 Dec 2014

Summary Report for Individual Task
052-250-0020
Assess a Platoon Compliance with Environmental Requirements.
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD5 - This product/publication has been reviewed by the product developers in coordination with the Fort Leonard Wood foreign disclosure authority. This product is releasable to students from all requesting foreign countries without restrictions.

Condition: You are given an environmental checklist and applicable references. Before a deployment or unit inspection, assess the platoon for environmental compliance.

Standard: Assess platoon compliance with environmental requirements that identifies deficiencies and necessary steps/courses of action required to correct the deficiencies.

Special Condition: None

Safety Risk: Low

MOPP 4:

Task Statements

Cue: None

DANGER
None

WARNING
None

CAUTION
None

Remarks: None

Notes: All required references and technical manuals will be provided by the local Command and they may be found at the provided website link: <http://www.apd.army.mil/>

Performance Steps

1. Identify the requirements before the self-assessment.
 - a. Identify if there is a local supplement or command guidance for the self-assessment.
 - b. Check higher headquarters for specific information to a unit or location.
 - c. Obtain a copy of the last command inspection from higher headquarters.
 - d. Develop a self-assessment schedule.
2. Identify the tools required to conduct an environmental self-assessment.
 - a. Use all applicable references (FM 3-34.5) to include the Unit Environmental Program.
 - b. Use higher headquarters or local self assessment checklist (if available).
 - c. Use the last regulatory inspections checklist as a guideline/self assessment checklist.
3. Identify the corrective actions required after the self assessment.
 - a. List all deficiencies noted.
 - b. Develop courses of action for each deficiency, required resources and present corrective actions to the company commander.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier a GO if all performance measures are passed. Score the Soldier a NO GO if any performance measure id failed. If the Soldier scores a NO GO, retrain and retest.

Evaluation Preparation: Test this task in conjunction with a field training exercise or other pre-deployment training which involves the assessment of environmental compliance status of a unit. The leader will be evaluated on their ability, as a leader, to protect the environment.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identified the requirements before the self-assessment.			
2. Identified the tools required to conduct an environmental self-assessment.			
3. Identified the corrective actions required after the self assessment.			

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	052-E-0014	Analyze Environmental Effects on Army Operations (ECCC)	No	No
	AR 200-1	ENVIRONMENTAL PROTECTION AND ENHANCEMENT	No	No
	FM 3-34.5	Environmental Considerations	No	No
	TC 3-34.489	The Soldier and the Environment.	No	No

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful

effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
